Convert to Co-Sleeping Position	13
Care and Maintenance	18
Warranty	19

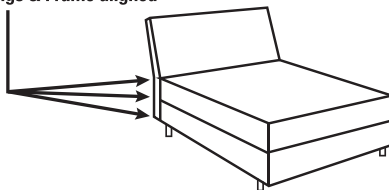

These instructions detail the safe use, assembly and maintenance of your product. Please read these instructions carefully and ensure that they are followed at all times. Failure to do so could result in serious injury or death.

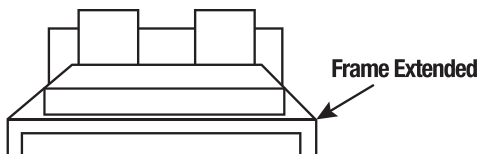

WARNINGS TO AVOID INJURY OR DEATH:

The co-sleeping mode is **ONLY** possible with adult bed types that comply with all the conditions described in the following graphics. The adult beds unfit with the following graphics **CANNOT** be used.

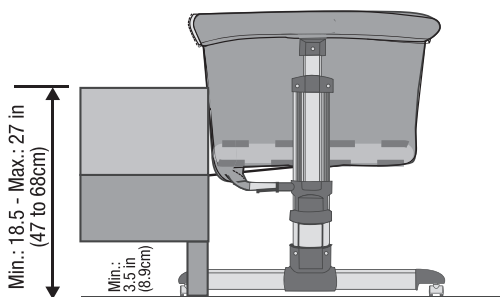

Mattress, Boxsprings & Frame aligned

ACCEPTABLE BED FRAME IN-LINE

**UNACCEPTABLE BED,
MATTRESS, BOXSPRING & FRAME NOT IN-LINE**

ACCEPTABLE ADULT BED CONDITIONS FOR CO-SLEEPING MODE

Make sure adult bed's bottom has at least 89mm high space for bedside sleeper's legs to slip into.

Read all instructions BEFORE assembly and USE of this product.

WARNINGS

- Failure to follow these warnings and instructions could result in serious injury or death.
- **SUFFOCATION HAZARD:** Discard all packing materials immediately after opening. Plastic bags and ties may cause suffocation or choking.
- ***FALL HAZARD** - To help prevent falls, do not use this product when infant begins to push upon hands and knees or has reached manufacturer's recommended maximum weight of 9kg, whichever comes first.

*SUFFOCATION HAZARD - Infants have suffocated

- In gaps between extra padding and side of bassinet,
- On soft bedding
- Use only the pad provided by DOREL AUSTRALIA
- Never add a pillow, comforter or another mattress for padding.
- If a sheet is used with the pad, use only the one provided by the supplier or specifically designed to fit the dimensions of the bassinet mattress.
- To reduce the risk of SIDS, pediatricians recommend healthy infants be placed on their backs to sleep unless otherwise advised by your physician.
- A bedside sleeper is designed to provide sleeping area for an infant until he or she begins to push up on hands and knees or approximately 5 months of age. Move your child to another sleeping product when your child reaches this stage.
- **Entrapment - Hazard** - To prevent death from entrapment, bedside sleeper must be properly secured to adult bed using the attachment system.
- There must be no more than a 1/2 in. (13mm) gap between the bedside sleeper and adult bed.
- Check tightness before each use by pulling bedside sleeper in a direction away from the adult bed.
- If the gap exceeds 1/2 in. (13mm), do NOT use this product. Do not fill the gap with pillows, blankets or other items that are suffocation hazards.

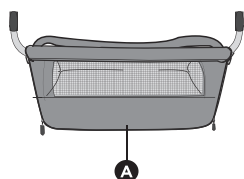

- Always read and follow assembly instructions for each product use mode (bedside sleeper, bassinet).
- Always use all required parts for each mode. Check instruction manual for list of required parts. Periodically check the product for loose, damaged or missing parts.
- The “L” hooks and straps assembly must always be used in bedside sleeper mode.
- Never use this product if there are any loose or missing fasteners, loose joints, broken parts or ton mesh or fabric. Check before assembly and periodically during use. Contact Dorel Australia for replacement parts. Never substitute parts.
- To avoid death form the infants neck being caught on the lower locking bar on the side that is next to the adult bed, the lower locking bar must be NO HIGHER than the adult bed mattress.
- Never permit bedding from the adult bed to be extended into the bedside sleeper.
- NEVER LEAVE your infant unattended in the bedside bassinet.
- Strings can cause strangulation! Never place items with a string around a child’s neck such as hood strings or pacifier cords.
- DO NOT suspend strings over the unit in any configuration or attach string to toys.
- NEVER LEAVE infant in product without the UPPER LOCKING BAR installed in the upper most position, unless securely attached to the adult bed
- Always check to be sure that the upper locking bar and the lower locking bar are in their “locked position” before placing the infant in the bedside bassinet.
- NEVER use plastic shipping bags or other plastic film as mattress covers these are not intended for that purpose. They can cause suffocation
- Make sure all straps are secured and tight when used in the co-sleeping position. Tighten straps periodically.
- STRANGULATION / SUFFOCATION HAZARD: The top edge of the lower locking bar must be level with or below the top of the adult mattress when the bedside bassinet used as co-sleeping mode. The level of the bedside bassinet mattress must be a minimum of 4 inches (102 mm)” below the top edge of the lowering bar. NEVER raise the level of the bedside bassinet mattress.
- NEVER USE the bedside bassinet in co sleeping mode without the “L” hooks attached and locked as shown. Failure to this hooking system could result in serious injury or death to the infant. Make sure that all straps are secured and tight. Check straps before each use.

- Failure to use this securing system will allow the bedside bassinet to move away from the adult bed and could result in the infant falling out of the bedside bassinet.
- **STRANGULATION HAZARD:** When “L” hooks and straps assembly are not in use, store in a safe place not accessible to children.
- **DO NOT** place product near a window where cords from blinds or drapes may strangle a child.
- Keep the bassinet away from stoves, heaters, campfires, and other hazards.
- **DO NOT** allow children to climb or play on or under unit in any configuration.
- **FALL HAZARD:** Remove infant from the bedside bassinet before starting any conversions.
- Always make sure that all top and bottom rails are securely locked in all configurations, before putting in infant/ child into the unit.
- Do not remove warning labels.

assembly instructions

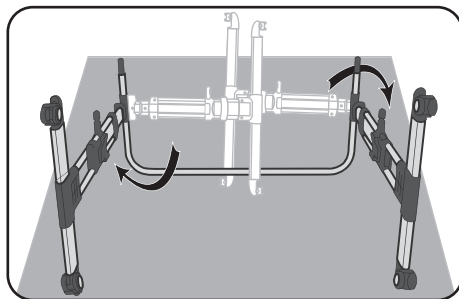

WARNING

Failure to follow these warnings and instructions could result in serious injury or death.

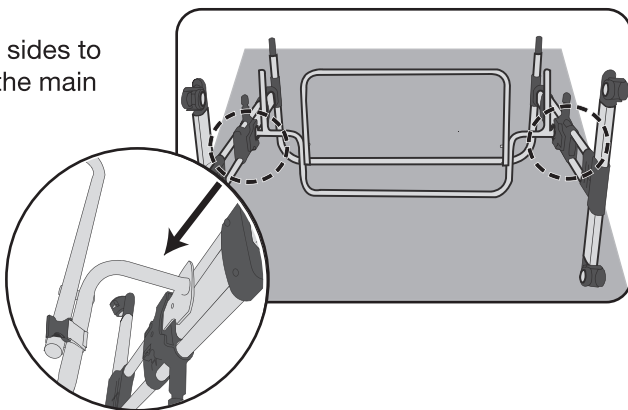

Step 1:

Lay down the main frame and open it.

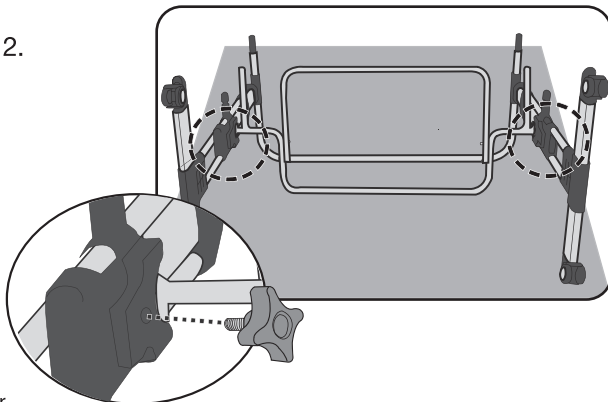

Step 2:

Inert support frame's two sides to the slot on the middle of the main frame legs.

Step 3:

Use screws to tighten step 2.

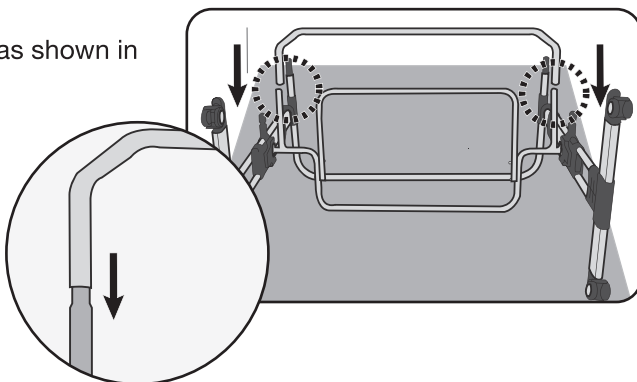

WARNING

Failure to follow these warnings and instructions could result in serious injury or death.

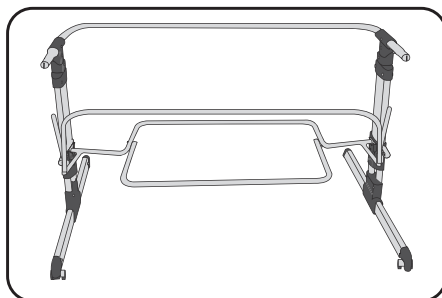

Step 4:

Insert lower locking bar as shown in the image.

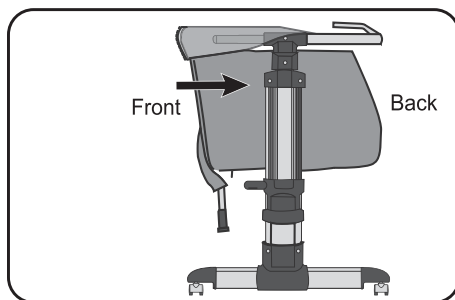

Step 5:

After step 4, make the whole frame stand up.

Step 6:

Put part (A) on the frame and install the cover.

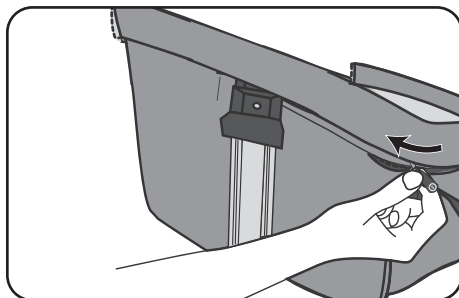

WARNING

Failure to follow these warnings and instructions could result in serious injury or death.

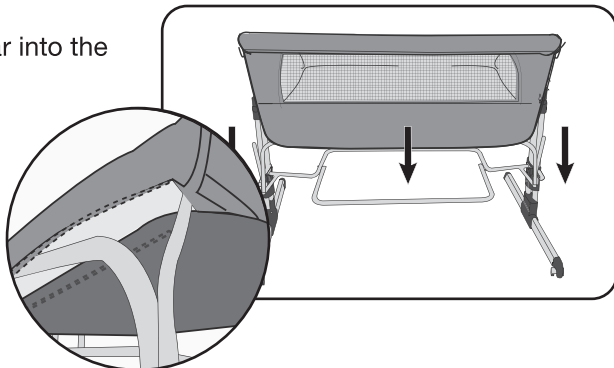

Step 7:

Zip up the cover with the black frame.

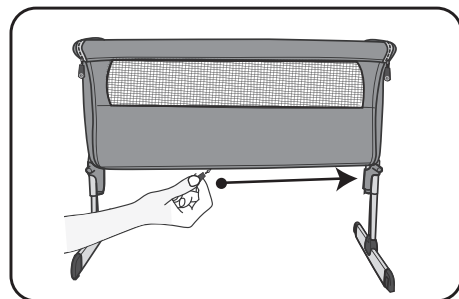

Step 8:

Insert the lower locking bar into the cover.

Step 9:

Zip up the cover.

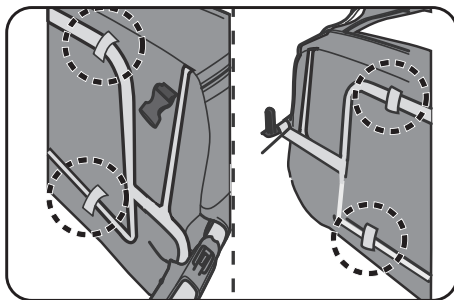

WARNING

Failure to follow these warnings and instructions could result in serious injury or death.

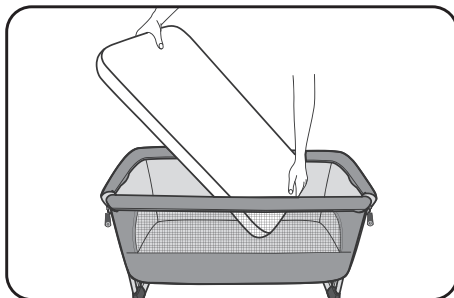

Step 10:

Fasten the hook and loop (on the bottom of the cover) to the bottom of the frame as tight as possible.

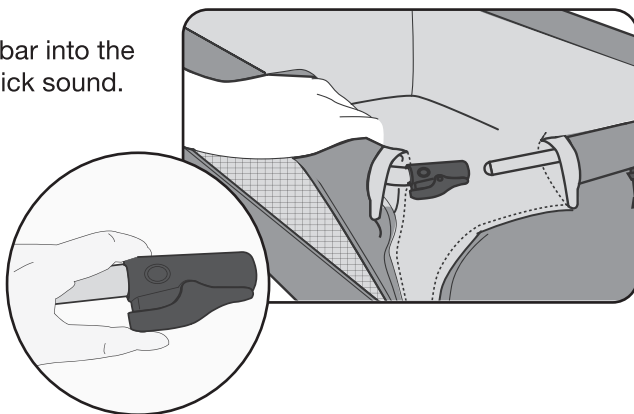

Step 11:

Put the mattress in and make it flat.

Step 12:

Insert the upper locking bar into the frame, until you hear a click sound.

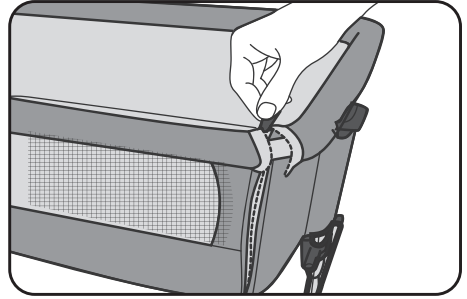

WARNING

Failure to follow these warnings and instructions could result in serious injury or death.

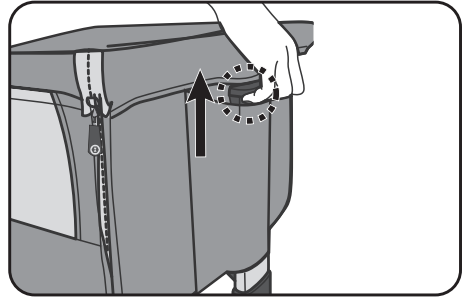

Step 13:

Zip up the two sides

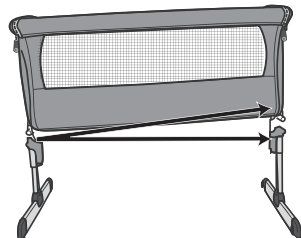

Step 14:

Lift up the lever on the two sides to adjust the height.

WARNING

- Make sure all loops and buckles are secured and tight. Periodically check your product to make certain all loops and buttons are tightly secured.
- DO NOT expose lower locking bar when it is properly installed.
- Adjust the bedside sleeper to the proper height and make sure the mattress is level.
- Do not use it as inclined sleeping product

convert to co-sleeping position

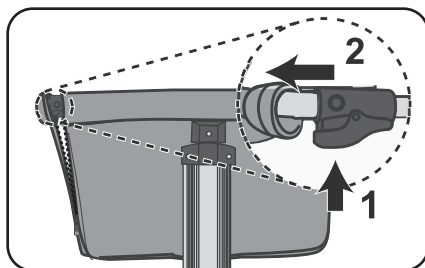

FALLING HAZARD

Remove infant from the bedside bassinet before starting conversions.

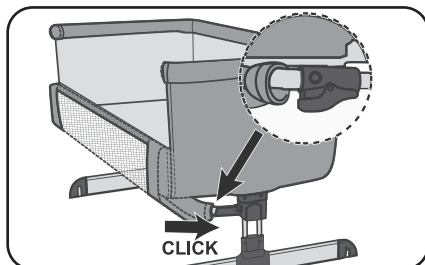

Step 1:

Press the two side buttons on the upper locking bar simultaneously to take it out.

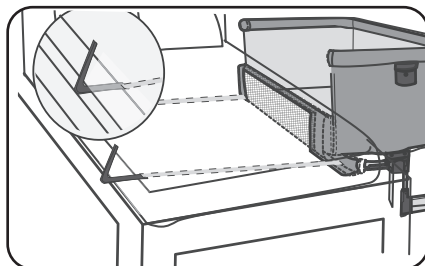

Step 2:

Insert the upper locking bar into the place showed in the picture.

Step 3:

Take out the straps, make the “L” hooks hock on the other side of the adult bed mattress and let the straps go through the bottom of the adult bed mattress.

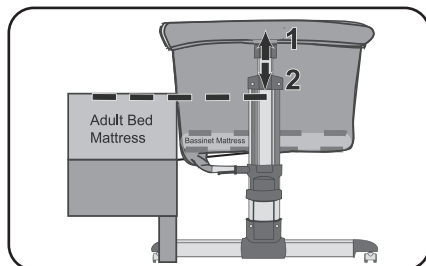

FALLING HAZARD

Remove infant from the bedside bassinet before starting conversions.

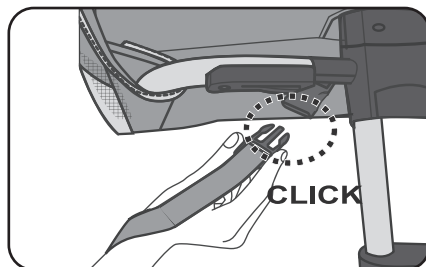

Step 4:

Adjust the bassinets height to fit the adult bed. The top edge of the lower locking bar must be level with or below the top of the adult mattress.

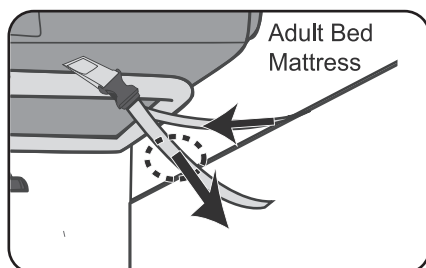

Step 5:

Connect the straps to the sleeper by fastening the buckles at the bottom of the bassinet. A click sound should be heard.

Step 6:

Pull the ends of the straps to make the bassinet and the adult bed as close as possible.

WARNING

- Check tightness before each use by pulling bedside sleeper in a direction away from adult bed. Make sure the gap is no more than 13mm. If more than 13mm, re-adjust the strap to pull tighter.
- It is recommended to make the strap shorter than the width of the mattress to ensure that the bassinet is pressed securely against the parental bed, without any gaps. When bassinet is tight and ready to use, roll the excess strap up and secure it with elastic loop.

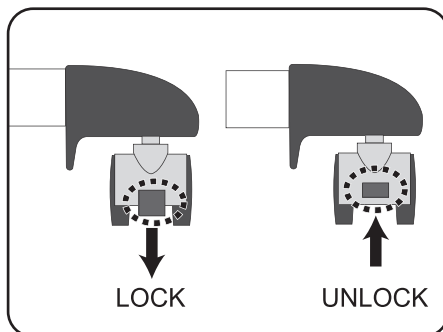

Step 7:

Make sure all wheels are locked

WARNING

Use the unlocked wheels **ONLY** when you want to move the bassinet. **DO NOT** put down the upper locking bar when the wheels are unlocked.

CAUTION

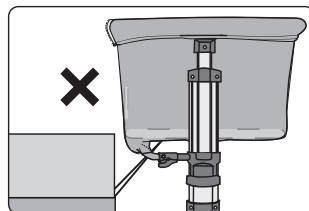

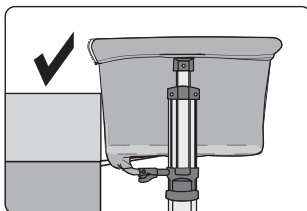

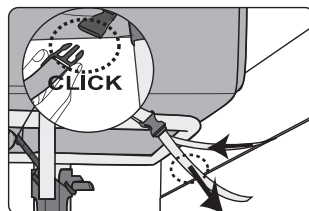

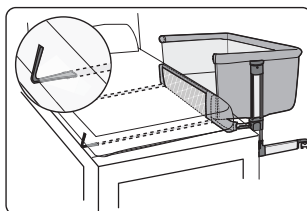

Caution the straps must be as horizontal as possible so it can be sufficiently tightened.

WARNING

The attachment system must **ALWAYS** be used in bedside sleeper mode.

To avoid death from the infant's neck being caught on the top rail on the side that is next to the adult bed, the top rail must be no higher than the adult bed mattress.

WARNING

STRANGULATION/SUFFOCATION HAZARD: The top edge of the lower locking bar must be level with or below the top of the adult mattress when the bedside bassinet is used as a co-sleeper position. The level of the bedside bassinet mattress must be a minimum of 4 inches below the top edge of the lower locking bar. **NEVER** rise the level of the bedside bassinet mattress.

WARNING

NEVER USE a bedside bassinet in co-sleeping position without the “L” hooks attached and locked as shown. Failure to use the locking system could result in serious injury or death to the infant. Make sure all straps are secured and tight. Check straps before each use.

WARNING

Failure to use this securing system will allow the bedside bassinet to move away from the adult bed and could result in infant falling out of the bedside bassinet. **NEVER** leave infant unattended in the bedside bassinet.

WARNING

STRANGULATION/ CHOKING HAZARD: Do not allow excess strap (or any loose object) to find its way into the bedside bassinet. Do not allow excess strap to lay loose on the floor because someone may trip over it.

WARNING

Make sure all straps are secured and tight. Periodically check your product to make certain all straps and buttons are tightened securely.

WARNING

Make sure push button on leg extension mechanism is secured for proper bed height.

WARNING

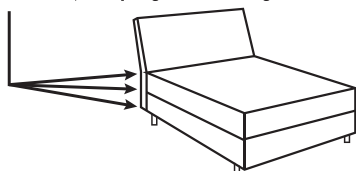

During use make sure that the parents bed sheets, blankets etc. do not enter and cover the interior of the bassinet.

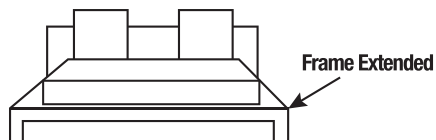

WARNING

Do not expose the lower locking bar when it is installed.

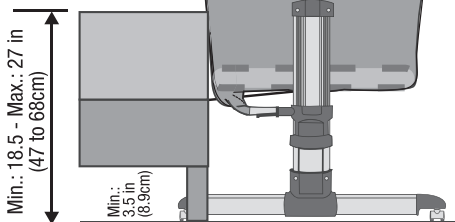

Mattress, Boxsprings & Frame aligned

ACCEPTABLE BED FRAME IN-LINE

UNACCEPTABLE BED,
MATTRESS, BOXSPRING & FRAME NOT IN-LINE

ACCEPTABLE ADULT BED CONDITIONS
FOR CO-SLEEPING MODE

WARNING

The bedside sleeper is designed for use only with adult beds that are between 470mm and 686mm from the floor to the top of the adult mattress.

care and maintenance

Cleaning:

- Mattress: Wipe clean with a damp cloth. Air dry. Do not machine wash or use hot iron.
- Mattress sheet: Machine wash, lukewarm water. Do not bleach. Air fluff dry. No heat.
- Metal Frame: Wipe with soft damp cloth. Air dry.
- Lining: Machine washable on lukewarm setting use delicate cycle. No chlorine bleach. Drip dry.

Maintenance:

- Regularly check spring lock to make sure they are securely in place. Wipe surface with a damp cloth or sponge using mild detergent water.
